I am an eager web developer coming from a chemistry and business background. I am a hard worker who doesn't give up until the project is completed, working 14 hours a day to become a full-stack junior web developer in only 8 weeks. I love being able to mix in my artistic with my analytical sides and am interested in front-end development.

Employment

CCAB, a division of BPA

Media Auditor

Toronto, ON

Apr 2016 to Mar 2017

In charge of my own work schedule, I have managed more than 5 audits at a time, keeping track of upcoming audits with other circulation managers, and closing them in a timely manner.

RBC

Payment Operator

Toronto, ON

Aug 2015 to Apr 2016

Keeping up with the required hourly requirements, I processed payments in strict accordance to SWIFT, LVTS, CPA, FED, and RBC policy. I have also contributed in the employee engagement committee as a volunteer, to raise the activity in our group.

IPAO

Marketing Specialist

Toronto, ON

Apr 2015 to Nov 2016

I managed social media accounts for a few of our clients, increasing engagement and followings by two or three times what it had started with.

I also took on roles in public relations, recruiting and leading interns, live tweeting, and exploring ways to improve efficiency in increasing social media engagement for new interns.

Strong Nutrition and Weight Loss

Social Media Marketing Project Manager

Apr 2015 to Dec 2016

I improved social media engagement and following by a substantial amount, built SEO on the main webpage, and creatively contributed to blog posts.

Baseline Chromtech

Administrative Assistant

Sep 2007 to Current

I respond to customer's orders, requests, and questions and ship products in a timely manner.

Projects

Markets+

Jul 2017 to Current

As a group of four, we made this farmer's market app so users can see products and markets close to them, and for farmers to communicate the products available to them and which markets they would be at. We have used Ruby on Rails for which we only studied for 1.5 weeks in, and PostgreSQL to store our data.

Snail Express

Jun 2017 to Jun 2017

We created this a hypothetical restaurant selling gourmet snails to test our knowledge with front end and back end, and uses PostgreSQL as our database. I went from knowing very basic JavaScript to completing the product view, shopping cart adjustments, and user authentication in just four weeks!

Tweetr

Jun 2017 to Jun 2017

Using our skills in HTML/CSS, JS, jQuery, AJAX in the front-end, and their Node, Express and MongoDB in the back-end, this Twitter imitation project was created in week 3 of web development bootcamp.

Chatty

Jun 2017 to Jun 2017

Users can see in real time the messages that everyone in the chat room posts. Due to React functionality, each user has its individual random colour assigned, without having to log in.

Volunteering

CMC (Circulation Management of Canada) · Social Media Manager

Nov 2016 to Current

Toronto, ON

I manage the company's Twitter, Facebook, and LinkedIn pages and keep members aware of current events.
