🌐 rosexw

I am a full-stack software developer coming from a chemistry and business background. I have a degree in Chemistry/English Literature, a postgraduate certificate in Global Business Management, and, most recently, a certificate in Full-Stack Web Development. I am a hard worker who doesn't give up until the project is completed. I love being able to mix in my artistic, with my analytical sides and am interested in front-end development. My most recent experience includes working on web and mobile applications with Evermight.

Projects

rosexw.github.io
Created my own portfolio page. Simplicity is the key!

Markets+

A farmer's market app so users can see products and markets close to them, and for farmers to communicate the products available and markets to sell at
This project is written with Ruby on Rails (1 week), React (1 week), and CSS/Material/SASS.

Snail Express

A hypothetical restaurant selling gourmet snails to test our knowledge with front end and back end, and uses PostgreSQL as our database
This was created with knowing very basic JavaScript to completing the product view, shopping cart adjustments, and user authentication in just four weeks!

Tweetr

A Twitter imitation that uses our skills in HTML/CSS, JS, jQuery, AJAX in the front-end, and their Node, Express and MongoDB in the back-end

Employment

Evermight

Junior Software Developer

Learned PHP, MySQL, Wordpress, Adobe Photoshop, Adobe InDesign, and Adobe Illustrator on my own for a challenge.

Styled web and mobile pages in CSS/responsive design and React Native, pixel pushed using Invision and Sketch apps.

CCAB, a division of BPA
