I am an eager web developer coming from a chemistry and business background. I have a degree in Chemistry/English Literature, a postgraduate certificate in Global Business Management, and, most recently, a certificate in Full-Stack Web Development. I am a hard worker who doesn't give up until the project is completed, working 14 hours a day to become a full-stack junior web developer in only 8 weeks. I love being able to mix in my artistic, with my analytical sides and am interested in front-end development.

Projects

Markets+

Jul 2017 to Jul 2017

A farmer's market app so users can see products and markets close to them, and for farmers to communicate the products available and markets to sell at

This project is written with Ruby on Rails (1 week), React (1 week), and CSS/Material/SASS.

Snail Express

Jun 2017 to Jun 2017

A hypothetical restaurant selling gourmet snails to test our knowledge with front end and back end, and uses PostgreSQL as our database

This was created with knowing very basic JavaScript to completing the product view, shopping cart adjustments, and user authentication in just four weeks!

Tweetr

Jun 2017 to Jun 2017

A Twitter imitation that uses our skills in HTML/CSS, JS, jQuery, AJAX in the front-end, and their Node, Express and MongoDB in the back-end

Chatty

Jun 2017 to Jun 2017

Users can see in real time the messages that everyone in the chat room posts

Due to React functionality, each user has its individual random colour assigned, without having to log in.
