I am an eager web developer coming from a chemistry and business background. I am a hard worker who doesn't give up until the project is completed, working 14 hours a day to become a full-stack junior web developer in only 8 weeks. I love being able to mix in my artistic, with my analytical sides and am interested in front-end development.

Projects

Markets+ — Jul 2017 to Current
A farmer's market app so users can see products and markets close to them, and for farmers to communicate the products available and markets to sell at
This project is written with Ruby on Rails (1 week), React (1 week), and CSS/Material/SASS.

Snail Express — Jun 2017 to Jun 2017
A hypothetical restaurant selling gourmet snails to test our knowledge with front end and back end, and uses PostgreSQL as our database
This was created with knowing very basic JavaScript to completing the product view, shopping cart adjustments, and user authentication in just four weeks!

Tweetr — Jun 2017 to Jun 2017
A Twitter imitation that uses our skills in HTML/CSS, JS, jQuery, AJAX in the front-end, and their Node, Express and MongoDB in the back-end

Chatty — Jun 2017 to Jun 2017
Users can see in real time the messages that everyone in the chat room posts
Due to React functionality, each user has its individual random colour assigned, without having to log in.
